

Capture The Flag

Goal: Allow administrators to manage students and announcements.

School Request

"The list shouldn't just sit there."

Flag 1 — Prepare Your Mission

Objective: Create a new branch for today's challenge named `feature/event-binding`

Screenshot:

- The command used to create and switch to the new branch.

```
Student@COLLEGEPC-9 MINGW64 ~/my-first-angular-app (feature/ngFor)
● $ git checkout -b feature/event-binding
Switched to a new branch 'feature/event-binding'
```

Flag 2 — Arm the Student Cards

Objective: Add action buttons to every Student Card.

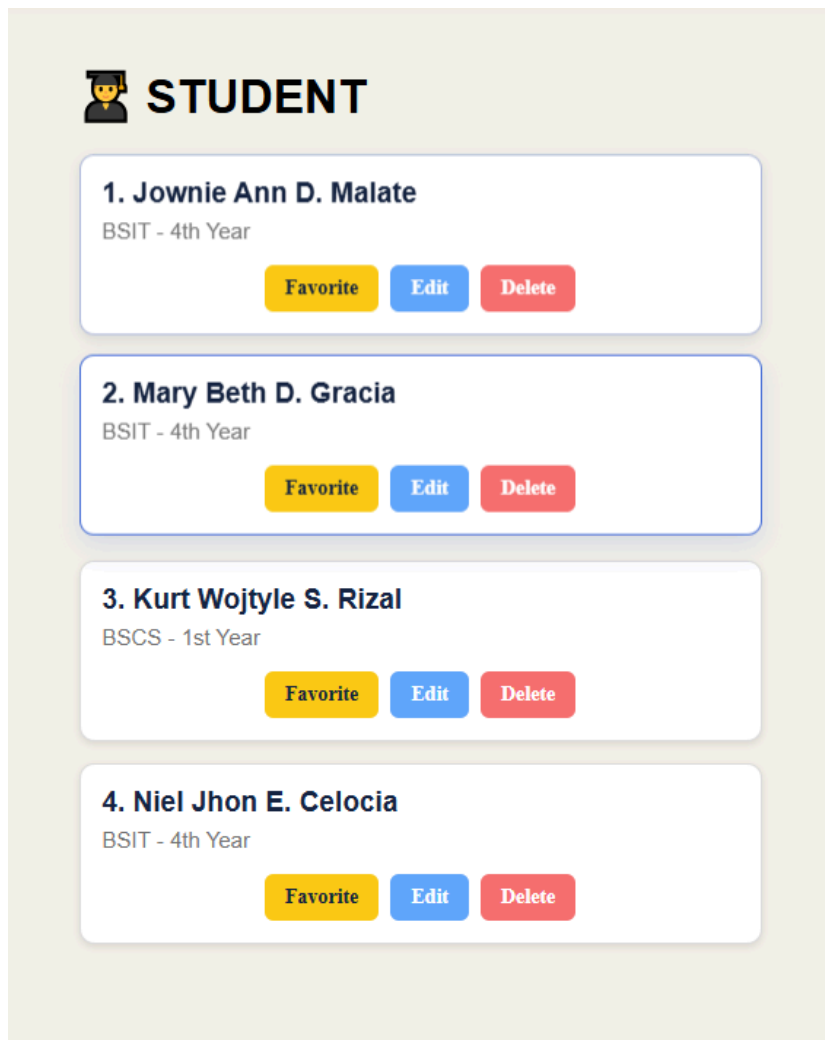

Each student card should now contain three buttons:

- Favorite
- Edit
- Delete

Do not make them functional yet.

Screenshot:

- Student cards showing the three new buttons.

Flag 3 — Arm the Announcement Cards

Objective: Add action buttons to every Announcement Card.

Each announcement card should now contain:

- Pin
- Delete

Again, only add the buttons for now.

Screenshot:

- Announcement cards with both buttons visible.

ANNOUNCEMENTS:

 **Enrollment Extended**

Enrollment for the 2nd Semester has been extended until August 15, 2026.

Author: Ms. Leona Villanueva

Date: August 1, 2026

[Pin](#) [Delete](#)

 **Library Hours Updated**

The college library is now open from 7:00 AM to 8:00 PM on weekdays.

Author: Mrs. Felipa Navaja

Date: August 2, 2026

[Pin](#) [Delete](#)

 **Bosconian Night 2026**

Join us for Bosconian Night on October 1, 2026. The theme is Old Money. Wear your finest classic and elegant attire as we celebrate an unforgettable evening.

Author: Mr. Louise Andrei Revil

Date: August 3, 2026

[Pin](#) [Delete](#)

Flag 4 — Wake Up the Buttons

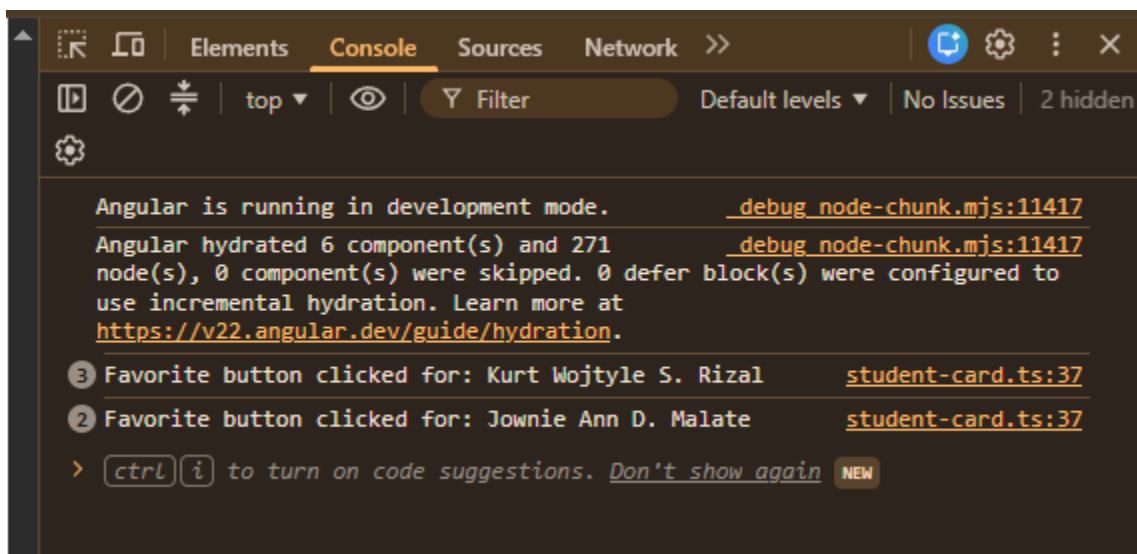

Objective: Make your first button interactive using Angular event binding.

Choose one button (such as Favorite) and make it respond when clicked. (No logic yet)

Hint: Use Angular's (`click`) event binding.

Screenshot:

- The console or browser showing the button successfully triggered an action.
- Code for event binding

```
};

favoriteClicked(studentName: string) {
  console.log('Favorite button clicked for:', studentName);
}
}
```

```
<div class="button-group">
  <button class="favorite-btn" (click)="favoriteClicked(student.name)">
    Favorite
  </button>
</div>
```

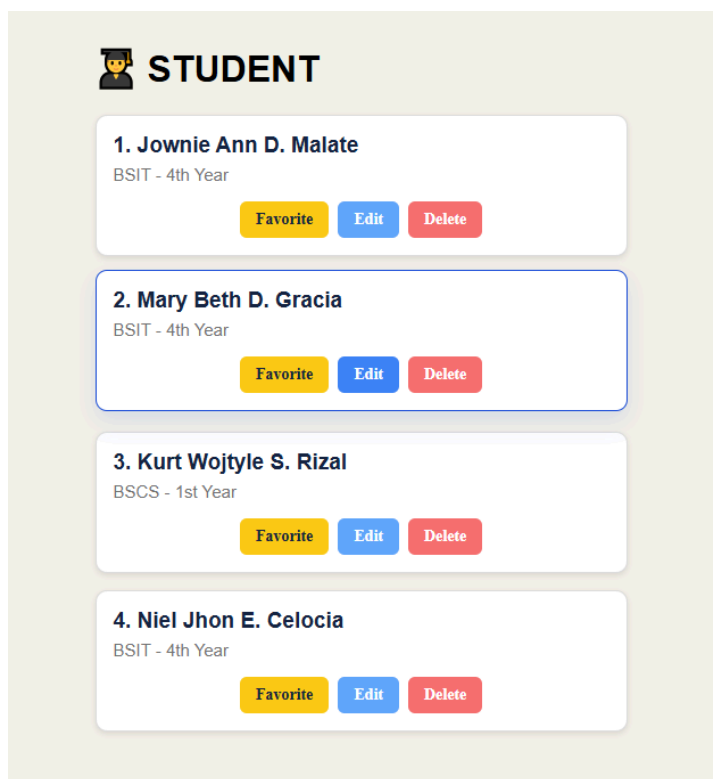

Flag 5 — Remove a Student

Objective: Make the Delete button remove a student from the list.

When Delete is clicked, that specific student should disappear immediately.

Screenshot:

- Before deleting a student.
- After deleting the student.
- Successful delete log/feedback
- Code for logic

Angular is running in development mode. _debug_node-chunk.mjs:11417
Angular hydrated 6 component(s) and 271 _debug_node-chunk.mjs:11417
node(s), 0 component(s) were skipped. 0 defer block(s) were configured to
use incremental hydration. Learn more at
https://v22.angular.dev/guide/hydration.
Deleted student: Kurt Wojtyle S. Rizal student-card.ts:42
> ctrl i to turn on code suggestions. Don't show again NEW
```

```
<button class="delete-btn" (click)="deleteStudent(student.name)">Delete</button>
```

```
deleteStudent(studentName: string) {
  this.students = this.students.filter(student => student.name !== studentName);
  console.log('Deleted student:', studentName);
}
```

Flag 6 — Crown a Star Student

Objective: Toggle a student's Favorite status.

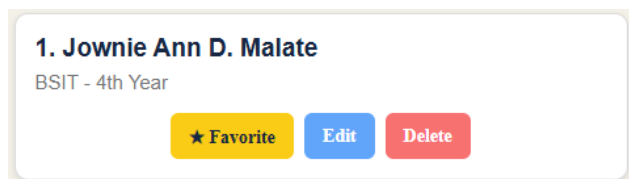

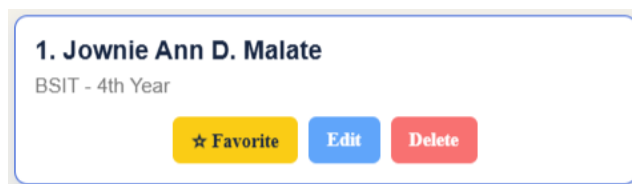

Clicking Favorite should switch between two states.

Ideas:

- Empty star → Filled star
- Gray button → Yellow button
- Normal card → Highlighted card

Screenshot:

- One student before favoriting.
- The same student after favoriting.
- Code for states

```
<button
  class="favorite-btn"
  [class.active]="student.isFavorite"
  (click)="favoriteClicked(student)">
  {{ student.isFavorite ? '★ Favorite' : '☆ Favorite' }}
</button>
```

```
},
{
  name: 'Niel Jhon E. Celocia',
  course: 'BSIT',
  year: '4th Year',
  isFavorite: false
}
];

favoriteClicked(student: any) {
  student.isFavorite = !student.isFavorite;
  console.log(`${student.name} favorite status:`, student.isFavorite);
}
```

Flag 7 — Control the Announcements

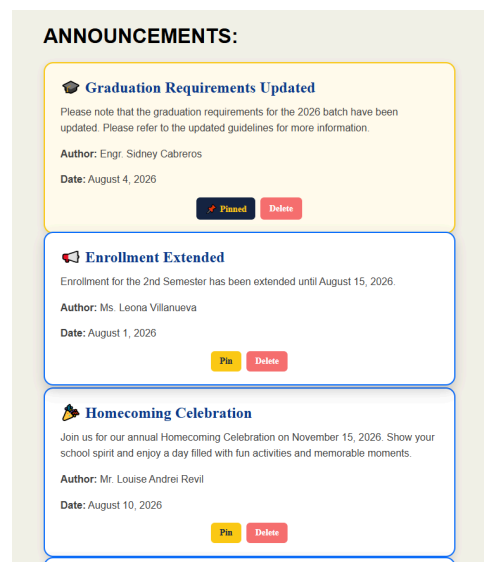

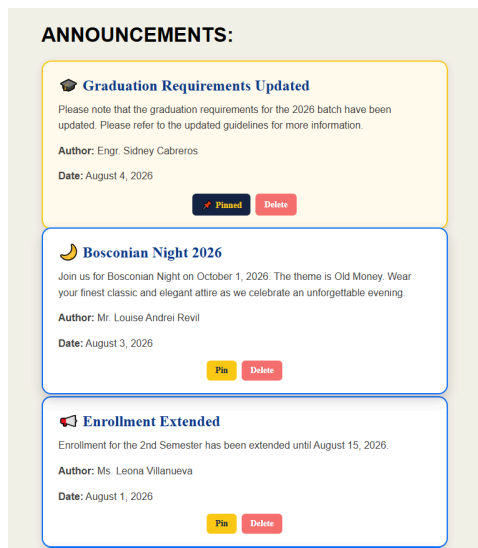

Objective: Make Announcement buttons functional.

Complete both actions:

- Pin should toggle the announcement's important status.
- Delete should remove the announcement from the list.

Screenshot:

- One announcement pinned.
- One announcement was deleted.
- Code for logic

```

        date: 'August 10, 2026',
        isPinned: false
    }
}
];

pinClicked(announcement: any) {
    announcement.isPinned = !announcement.isPinned;
    console.log(`${announcement.title} pinned status:`, announcement.isPinned);

    this.announcements.sort((a, b) => {
        return (b.isPinned ? 1 : 0) - (a.isPinned ? 1 : 0);
    });
}

deleteAnnouncement(title: string) {
    this.announcements = this.announcements.filter(a => a.title !== title);
    console.log('Deleted announcement:', title);
}
}

```

```

<div class="button-group">
    <button
        class="pin-btn"
        [class.active]="announcement.isPinned"
        (click)="pinClicked(announcement)">
        {{ announcement.isPinned ? '📌 Pinned' : 'Pin' }}
    </button>
    <button class="delete-btn" (click)="deleteAnnouncement(announcement.title)">Delete</button>
</div>
</div>

```

Flag 8 — Trigger Edit Mode

Objective: Prepare for future editing.

Clicking the Edit button should display which student is being edited.

Examples:

- Browser alert
- Console message
- On-screen text

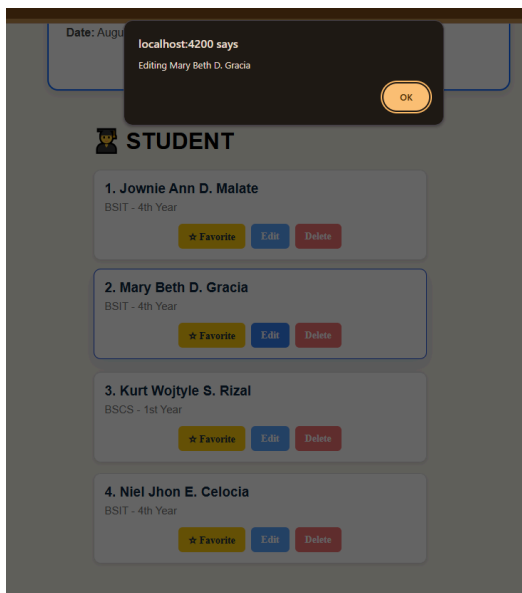

Example output:

Editing Juan Dela Cruz

(No logic yet)

Screenshot:

- The edit action successfully displays the selected student's name.
- Code for edit mode

```
<button class="edit-btn" (click)="editClicked(student.name)">Edit</button>
```

```
editClicked(studentName: string) {  
  console.log('Editing', studentName);  
  alert('Editing ' + studentName);  
}
```

Flag 9 — The Interactive UI

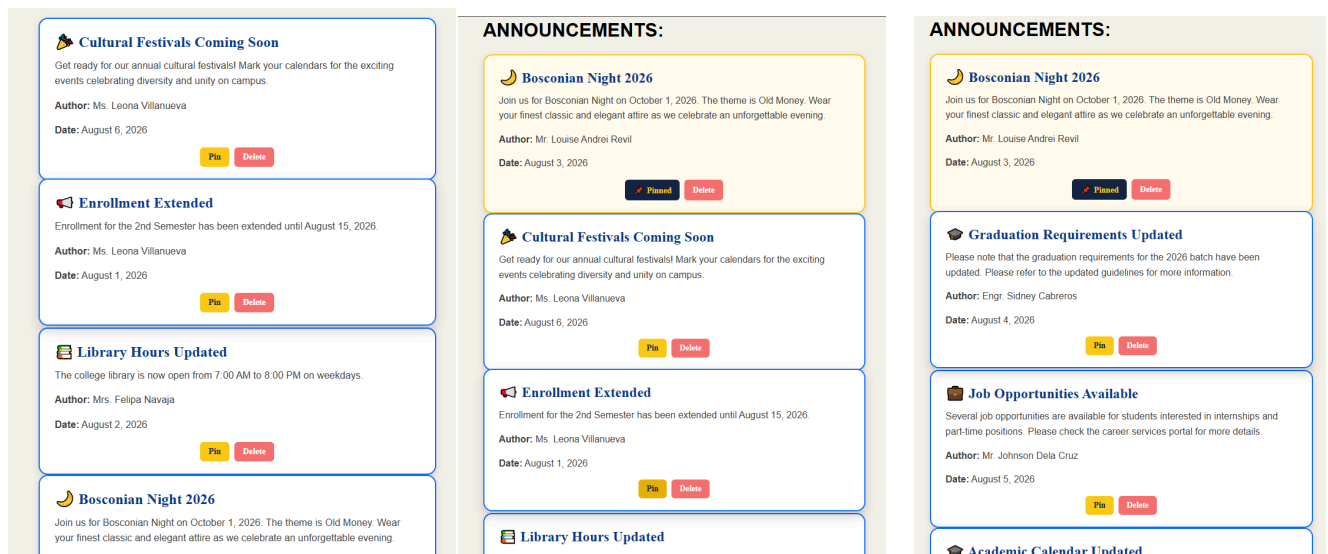

Objective: Your Student Portal should now respond to user actions without refreshing the page.

Checklist:

- Student cards have Favorite, Edit, and Delete buttons.
- Announcement cards have Pin and Delete buttons.
- Favorite toggles correctly.
- Students can be deleted.
- Announcements can be pinned.
- Announcements can be deleted.
- Edit identifies the selected student.

Screenshot:

- Your completed interactive Student Portal showing both Student Cards and Announcement Cards with working interactions.
